PROFESSIONAL SUMMARY

React Native and Expo Developer with professional experience building, testing, releasing and maintaining production Android and iOS mobile applications. Skilled in JavaScript, TypeScript, Redux, Context API, REST and SOAP API integration, JWT authentication, Firebase Cloud Messaging (FCM) push notifications, Razorpay payments, and Expo EAS Build. Experienced across the full mobile app lifecycle: client requirement gathering, feature development, API testing, APK/AAB/IPA release builds, Google Play Console and App Store deployment, and production troubleshooting.

TECHNICAL SKILLS

- **Mobile Development:** React Native, Expo, Expo Router, React Hooks, React Navigation, Redux, Context API, State Management, AsyncStorage, Local Caching, Push Notifications, Responsive UI/UX
- **Languages:** JavaScript (ES6+), TypeScript, HTML, CSS, SQL
- **APIs & Backend:** REST API, SOAP API, JWT Authentication, JSON, XML, Node.js, Express.js, MongoDB, MySQL, Oracle
- **Payments & Cloud:** Razorpay, Firebase, Firebase Cloud Messaging (FCM), Cloudinary, Render, Netlify
- **Build & Deployment:** Expo EAS Build, Expo Prebuild, APK, AAB, IPA, Gradle, Android Studio, Android SDK, Android Keystore and App Signing, Google Play Console, Apple App Store Connect
- **Testing & Tools:** Postman, Functional Testing, Regression Testing, API Testing, UI Testing, Integration Testing, Device Testing, Git, GitHub, VS Code

PROFESSIONAL EXPERIENCE

Software Developer – Mobile & Automation **Sep 2025 – Present**

Abrosys Technology Pvt. Ltd., Bhubaneswar, Odisha

- Develop and maintain production React Native (Expo) applications for Android and iOS with reusable components, navigation, state management, API integration and responsive UI.
- Work directly with clients and stakeholders to gather requirements, clarify change requests, suggest technical and product improvements, and convert them into mobile features.
- Integrate REST and SOAP APIs, JWT authentication, JSON/XML workflows, Redux and Context API for scalable state management.
- Implement Firebase Cloud Messaging (FCM) with foreground and background push notifications.
- Optimize API synchronization, local caching and state updates for shipment tracking, task workflows and role-based features.
- Build and enhance ETA Mobile modules: shipment tracking, driver status, option/update workflows, navigation and notifications; resolve production issues.
- Enhance TaskCafe with force-update functionality, task workflows, role-based access and Android compatibility fixes.
- Generate and validate production APK, AAB and IPA builds using Expo EAS Build, Expo Prebuild, Gradle and Android Studio.
- Manage Android keystore signing, app versioning, Google Play Console and App Store submissions; troubleshoot build, signing and compatibility issues.
- Perform functional, regression, UI, API, integration and physical-device testing with Postman and Android devices.

KEY PROJECTS

ETA Mobile Application (Production App) **React Native, Expo, JavaScript, Redux, Context API, REST, JWT, FCM**

- Developed Status, Driver Status, Find, Info/Test Mode, PCOB and POD modules with shipment tracking and notifications.
- Implemented foreground/background notifications, ACK processing, local state updates and optimized API synchronization.
- Delivered requirement changes, bug fixes, UI/UX improvements and release validation.

TaskCafe (Production App) **React Native, Expo, TypeScript, REST, SOAP, Firebase, FCM**

- Built task details, task updates, editable dropdowns, assignee mapping, role-based ETA/Non-ETA workflows and force-update.
- Resolved Gradle, TypeScript, dependency, Android SDK, Firebase/FCM and native configuration issues.
- Generated and tested APK, AAB and IPA releases with end-to-end functional, UI, API and regression testing.

P-GYM – Gym Management & Membership App React Native, Expo, Redux, Node.js, Express.js, MongoDB, Razorpay, FCM, Cloudinary

- Independently designed, built and deployed a full-stack gym management app with authentication, membership plans, subscription approval, admin panel, gallery and exercise modules.
- Integrated Razorpay payments, FCM push notifications, subscription expiry reminders, AsyncStorage caching and Cloudinary image upload.
- Developed the Node.js/Express.js REST backend with MongoDB, deployed it on Render, and created Android release builds with Expo and Gradle.

EDUCATION

Master of Computer Applications (MCA) **2025**

C. V. Raman Global University, Bhubaneswar | CGPA: 8.56
